

# TOUCH RUGBY & NETBALL

[www.londontouchrugby.com](http://www.londontouchrugby.com)

Our Netball Competition Rules are normal 7 aside international rules.

- Teams may substitute at anytime they have possession of the ball. This must be done off the court and out of the way of play. You can also substitute at half time.
- All games are controlled by the registration desk- half time is not for resting, only to change ends and substitute.
- Teams must be registered and ready to go at least 5 minutes before games, where possible the two captains should have the "toss " before hand to determine the first pass.
- Bibs, ball and scorecards are supplied.
- Captains should ensure team members have removed any jewellery and nails are kept to a reasonable length.
- As soon as the buzzer for end of games have gone- all players should place the bibs in a pile by the gate for the next game.
- All teams are required to referee games and these are clearly marked on the draw. You can supply either one or two referees, but they must be competent. Should you not wish to referee your game, we can supply a ref on your behalf. There is a charge of £5.00 per game and you must advise us at least 1 week in advance - if not it's £10.00.
- If your team referees the last games, please bring the Bib, Ball and scorecards up to the registration area.
- Should Touch be rained off, then Netball will also be postponed and team will be notified of new dates.
- Should you be short a player or two this is not reason to default, there are always players who are willing to fill in.
- Any team defaulting will lose the bond of £60
- Any team that defaults with in the last 4 weeks of the season will loss the right to progress to the playoffs.
